Cineasia

CineAsia celebrates its 25th anniversary this year and is continually expanding to handle the demand for more studio product presentations and programming. The additional day added last year allows CineAsia to focus on specific territories. This year we will highlight China & Vietnam. In addition, with plenty of events throughout the convention, CineAsia provides the perfect opportunity for social interaction with current and new clients to make connections and build sustainable relationships.

Why Asia?

The Asia-Pacific market continues to be one of the most exciting territories in the world for the movie exhibition business, both for its astonishingly rapid growth and for the high presentation standards of its cinemas. Four of the top ten international box office markets are in Asia - China, Japan, India, and South Korea.

25 YEARS OF CINEASIA

“ CineAsia has always been an effective platform for IMAX to network with our clients and partners in the Asia-Pacific region. We are pleased to utilize the event as a great opportunity to sustain and enhance business relations with our valued partners.”

- IMAX CHINA
