

## SAFETY RULES INSIDE THE CCIB FACILITIES

The following document, is an outcome from real previous Risk Assessments carried out during past events that took place in our center.

Every employee, third party employee and autonomous staff must be aware and follow the rules listed below, before doing any type of work in the event.

- Only **authorized staff** will have access to the CCIB facilities, and no one under the age of 18 is allowed to access the assembly area.
- Smoking is not allowed, neither the use of any other type of substances (such as alcohol) that could alter the perception of risk during work hours and/or inside the CCIB facilities.
- **Dangerous goods or hazard materials** are forbidden in the CCIB facilities.
- During the event, some **work in altitude** may be necessary, increasing the **risk of falling objects**, and for that reason, a tool-belt shall be used. The area surrounding the work in altitude shall be marked and/or isolated, and the use of helmets by ground staff is encouraged, as well as keeping area free from workers not involved and deemed necessary for the labor.
- Keep all **work areas** clear and **neat**, free from accumulated material that may create barriers or block the way, especially emergency exits.
- Do not block the access to fire extinguishers and firehoses and locate the position of these assets in the work area before starting to carry out any labor. Never set them up out of use.
- The **electric** feed system shall not be manipulated without previous consent from responsible staff from CCIB.
- In accordance to the **Risk Assessment**, the appropriate **PPE** shall be used by every employee, third party employee or autonomous worker, with special attention to the **safety shoes/boots** inside the facilities during the setting and disassembling of stage, stands, etc.
- Use only those equipment's and machinery for which you are qualified and authorized for, respecting the rules indicated by the manufacturer, and ensuring they are in proper condition for use, with no missing parts or protection, fully isolated electric cables, etc. Disconnect/turn off when not in use.
- The means of transport designed to move Materials (forklift, pallet truck, etc.), shall not be used in any circumstances to transport people.
- Stands shall not be taken apart by being "knocked down". It has to be dismantled piece by piece, and under any cases be thrown, ripped off or beaten.

Breaching the safety rules will imply the cease of the ongoing work and failing to follow indications provided by CCIB staff may lead to **immediate removal** from the center facilities.
